To whom it may concern:

This letter serves as a strong recommendation for Neil Johnson and his company, International Merchant Services, which has been a business partner with Triton Systems since 1992 and in that time has grown to become one of our top distributor.

When evaluating an ATM vendor, experience in the industry, after sale support, and a national presence are important factors to consider in your decision. International Merchant Services easily meets all of the above criteria. I feel their experience and market knowledge can only help to insure a successful ATM program.

I hope this letter will be helpful in your decision making process and erase any doubts, if you had any, as to International Merchant Services' ability to provide an excellent ATM program. If you have remaining questions please give me a call. I can be reached at 1-800-367-7191

Sincerely,

Robert Sandoz
Vice-President
